The comments received from the judges were the nice presentation is nice, simple which made to understand easily what is the idea of the project & the concept is good</p>

		<p>which is needed to India. We meet the Director of AICTE Dr. Manpreet Singh Manna & discussed about our idea to him. He encouraged us & wished us.</p> <p>The coding resumes again after dinner by 9.00 P.M. Overnight phase started where the experts gave their inputs for all the teams. Then the coding continues.</p> <p>April 2nd-Day 2</p> <p>Session started with yoga, followed by 9.00 A.M the Second Round of Evaluation (3 Judges Per Panel, evaluating implementation of ideas). The comments received from the experts are an idea is too good & demo which we have shown is ok. By 12.00 P.M the input session where the experts will give suggestions to all the teams started about their presentation & demo. By 5.05 P.M Round 3 of Judging started where the top 7 teams are identified by them. We are proud to say that we are the one among the South Indian to be shortlisted for the final power judging round from 40teams who took part in that event. By 7.45 P.M the final round started with power judges (5minutes final Pitch). No comments for that session. After the power judge round the top 3 teams are selected & awarded. The program ended by the National Anthem.</p>
7	Details of Achievement	Participation
8	Overview Feedback for the Event (what discussed & outcome)	<p>The event is the All India Level Competition. We are the one who shortlisted for the final round power judge presentation from south India in that particular region. The comments given from the various ministry sectors and experts are the core of the idea is good. This project will help the visually impaired persons to be independent. The technology used behind is ZIGBEE which is old and should not be used for transportation purpose in India so it can be exchanged in the future work to convert this prototype into the product.</p>
